

As with most things in life, dressing your dog should be done with common sense. Surely if it's 90 degrees out, your dog does not need to be wearing a coat. However, clothing and accessories can be extremely beneficial for dogs when worn appropriately.

GoldPaw Series offers a variety of options for each season to ensure your pup stays comfortable year-round, including:

- The **Sun Shield Tee**: This lightweight garment is perfect for summer as it blocks 98 percent of the sun's UV rays. Whether worn indoors or out, it's great for allergies, wound care and topical medication. The tees even prevent doggy odor thanks to its antimicrobial treated fabric.
- The **Stretch Fleece**: Keeps Fido warm and stylish without adding bulk. The fleece contains recycled polyester and 7% spandex for a four-way stretch to guarantee a perfect fit, also making it easy to get on and off.
- The **Crossover Harness**: Perfect for autumn walks, the harness is made from thick 3D orthopedic fabric and is highly breathable. It has large coverage to reduce pressure and the knit fabric moves with the dog for supreme comfort. It also features a built-in handle for high traffic conditions or seat-belt pass-through.
- The **Astoria Overcoat**: Keeps pups dry and warm from any springtime showers. It's made with a seamless Suppletex material that makes it truly waterproof, mesh lining to help keep cool and a reflective trim collar to keep your pup visible.
